

Measuring for Custom 9

This modification has some limitations.
If there are too many stairs or the landing is too long, we may need to splice the top rail.

If you are interested in modifying your railing like Custom Rail #9
take measurements A through G and any overhang,
count your stairs, then give us a call.

If you have a different amount of stairs than our drawing
measure each rise and run to give to us.

* If you can e-mail a picture - that is very helpful *
